**ITEM 12. RESULTS OF OPERATIONS AND FINANCIAL CONDITION.**

Phillips-Van Heusen Corporation, a Delaware corporation has provided EBITDA guidance of \$147.0-\$151.0 million for its fiscal 2004 year, excluding certain charges relating to the Company's exiting of its Bass wholesale footwear business, closing of underperforming retail outlet stores and debt extinguishment costs associated with its recent bond refinancing. EBITDA is a "non-GAAP financial measure" which represents net income (loss) before interest expense, income taxes, depreciation and amortization. EBITDA is provided because the Company believes it is an important measure of liquidity. The Company uses EBITDA in connection with certain covenants relating to the Company's outstanding debt. EBITDA should not be construed as an alternative to net income (loss) as an indicator of the Company's operating performance, or as an alternative to cash flows from operating activities as a measure of the Company's liquidity, as determined in accordance with generally accepted accounting principles. The Company may calculate EBITDA differently than other companies. Set forth below is the Company's reconciliation of net income (loss) to EBITDA of \$149.0 million which is the midpoint of the range provided. It is not possible to provide a reconciliation for the entire range without unreasonable effort due to the number of elements which comprise EBITDA, including net income, income taxes, interest expense and depreciation and amortization, each of which is subject to a range of estimates.
